Section 1000 – Workplace Safety

Policy:	**1010**	**Effective Date:**	
Subject:	**Safety**	**Revised Date:**	**January 15, 2010**

Purpose: Core Laboratories is committed to operate worldwide in a manner that fosters safety, health, efficiency among the employees, quality and reliability in its services.

It is the intent of Core Laboratories to provide each employee a place of employment free from recognized hazards and conducive to the provision of quality services.

I. Scope

This policy applies to all departments, all divisions and all employees of Core Laboratories.

II. Policy

It is the duty and responsibility of management and of every employee of Core Laboratories to give their full support to this commitment. Accordingly, we hereby establish, as our company standards, the following:

A. Core Laboratories is committed and dedicated to the maintenance of safe working conditions and to the employment of safe operating conditions.

B. Core Laboratories will provide proper accident prevention equipment and devices.

C. Every employee of Core Laboratories is responsible for maintaining safe and healthful working conditions

1. The management of Core Laboratories is responsible for establishing and maintaining safety and health standards and rules designed to prevent work related accidents.

2. Employees are responsible for performing their work in a safe manner, following all health and safety standards and rules, and for using the prescribed safety equipment and devices.

D. Core Laboratories welcomes and strongly encourages suggestions from employees for keeping their workplace free from safety and health hazards, insofar as possible.

   A continuous safety effort by all employees will aid Core Laboratories in achieving safe and healthful working conditions. Safety consciousness is not only good for general welfare of all employees but it is also good business
